1. I understand that as a result of conferences between [redacted] of my office and the Division of Techniques and Methods of the Central Intelligence Agency, a plan has been formulated for centralizing their efforts in the field [redacted]. The attached working agreement (Tab A) outlines the policies under which this centralized group might operate.

2. By pooling assets and making joint use of facilities, the efficiency and productivity of both groups should be increased. I believe this plan has merit, and I hope that it will meet with your approval.
